

# Innovating Energy. Engineering The Future.

---

Safety. Quality. Reliability.

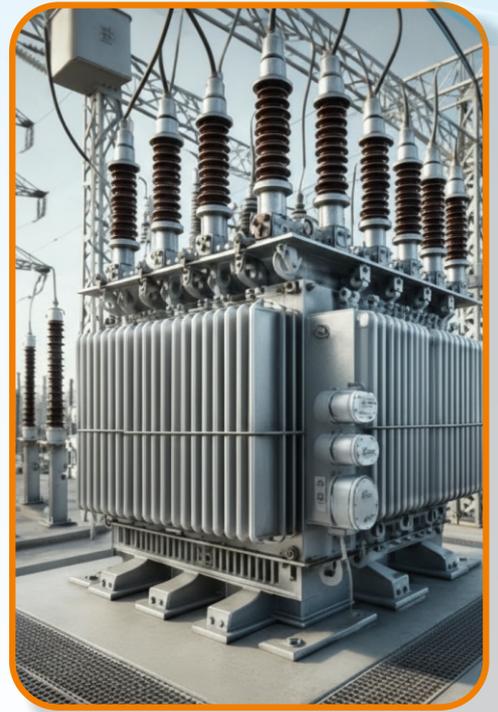

## ABOUT US :

# Exgen Electrical Infra Pvt. Ltd.

Exgen: EEIPL Electricals & Engineering Services is an ISO-certified company at the forefront of the electrical engineering sector. With a strong focus on system engineering and execution, we are committed to delivering high-quality solutions that ensure customer satisfaction at every stage.

Renowned for our precision, craftsmanship, and value-driven approach, EEIPL serves a wide range of industries with reliable and efficient electrical engineering solutions. Our state-of-the-art infrastructure, combined with a team of highly skilled professionals, enables seamless project execution—from concept and design to final delivery.

Driven by our core principles of teamwork, innovation, and timely implementation, we build long-term partnerships and consistently deliver superior results. At EEIPL, your success is our mission.

## Our Mission

1

To deliver reliable, safe, and future-focused electrical solutions by combining engineering expertise with modern technology.

## Our Vision

2

To be a preferred electrical contracting partner known for innovation, quality execution, and long-term professional relationships.

## Core Value

3

Commitment, integrity, safety, and customer-first thinking drive every project we undertake.

## OUR SERVICES

### ◆ LT, HT & EHV Electrical Projects Work

We execute complete LT, HT, and EHV electrical projects with a strong focus on safety, quality, and compliance. Our services cover industrial, commercial, and infrastructure power systems requiring reliable and high-capacity electrical installations.

From design and engineering to installation, testing, and commissioning, our experienced team ensures seamless execution of electrical projects in accordance with statutory norms and industry standards.

### ◆ Industrial & Commercial Electrification Projects

We deliver end-to-end Industrial and Commercial Electrification Projects with a focus on safety, reliability, and operational efficiency. Our solutions cater to factories, warehouses, commercial complexes, and infrastructure developments.

From power distribution systems and lighting installations to equipment wiring and load management, our team ensures efficient execution in compliance with industry standards and statutory regulations.

### ◆ Turnkey Electrical & Mechanical Projects

We offer comprehensive Turnkey Electrical & Mechanical Projects solutions, managing your project from concept to commissioning. Our team handles design, procurement, installation, testing, and maintenance to deliver fully functional systems on time and within budget.

Our turnkey services integrate electrical systems, mechanical equipment, automation, and project management to ensure seamless coordination and operational efficiency for industrial, commercial, and infrastructure projects.

### ◆ Electrical Project Management

We provide professional Electrical Project Management services to ensure efficient planning, execution, and delivery of electrical projects across industrial, commercial, and infrastructure sectors. Our structured approach ensures safety, quality, and timely completion.

From project feasibility and design coordination to procurement, execution, testing, and commissioning, our experienced team manages every phase while maintaining strict compliance with technical standards and statutory norms.

## OUR SERVICES

### ◆ MSEDCL & Electrical Inspector Liaisoning Work

We provide professional MSEDCL and Electrical Inspector liaisoning services to ensure smooth approvals, clearances, and statutory compliance for electrical projects. Our liaisoning support minimizes delays and simplifies regulatory processes.

Our services cover coordination with MSEDCL authorities, Electrical Inspectors, and other statutory bodies for load sanctions, power connections, safety approvals, energization, and compliance certifications.

### ◆ Solar Power Plants EPC

We provide end-to-end Solar Power Plants EPC services for industrial, commercial, and institutional applications. Our solutions are designed to deliver clean, reliable, and cost-effective renewable energy while reducing dependency on conventional power sources.

From site survey and feasibility analysis to system design, installation, testing, commissioning, and maintenance, our experienced team ensures maximum energy generation, safety, and compliance with all regulatory norms.

### ◆ Plant Shifting, Installation & Project Activities

We offer end-to-end Plant Shifting, Installation, and Project Execution services designed to ensure safe, efficient, and seamless relocation of industrial plants and machinery. Our expertise covers dismantling, transportation, reinstallation, alignment, and commissioning with minimal operational downtime.

With a systematic approach and strict adherence to safety and quality standards, we manage complex plant relocation projects while ensuring accuracy, reliability, and continuity of production processes.

### ◆ CCTV & Security Systems

We provide advanced CCTV and Security System solutions to safeguard industrial, commercial, and residential premises. Our systems are designed to enhance surveillance, improve safety, and ensure real-time monitoring with high reliability and performance.

From system design and camera selection to installation, integration, and commissioning, we deliver customized security solutions that meet site-specific requirements and compliance standards.

## OUR SERVICES

### ◆ EV Charger Infrastructure

We provide complete EV Charger Infrastructure solutions to support the growing demand for electric mobility across industrial, commercial, residential, and public charging applications. Our services ensure safe, scalable, and future-ready EV charging installations.

From site assessment and load analysis to charger selection, installation, testing, and commissioning, we deliver end-to-end solutions compliant with statutory standards and utility guidelines.

### ◆ Suppliers of All Types of Control Panels

We are trusted suppliers of a wide range of electrical control panels designed to meet the operational, safety, and automation requirements of industrial, commercial, and infrastructure projects. Our panels are engineered for reliability, efficiency, and long-term performance.

From design and manufacturing to testing and commissioning, we deliver control panels that comply with relevant IEC, IS, and customer-specific standards, ensuring seamless integration with existing systems.

### ◆ Chief Electrical Inspector to Government Liaisoning

We provide professional liaisoning services with the Chief Electrical Inspector to Government (CEIG) to ensure statutory compliance, timely approvals, and smooth coordination for electrical installations and power infrastructure projects.

Our services help industries, commercial establishments, and infrastructure projects navigate regulatory procedures efficiently, minimizing delays and ensuring adherence to applicable electrical safety rules and regulations.

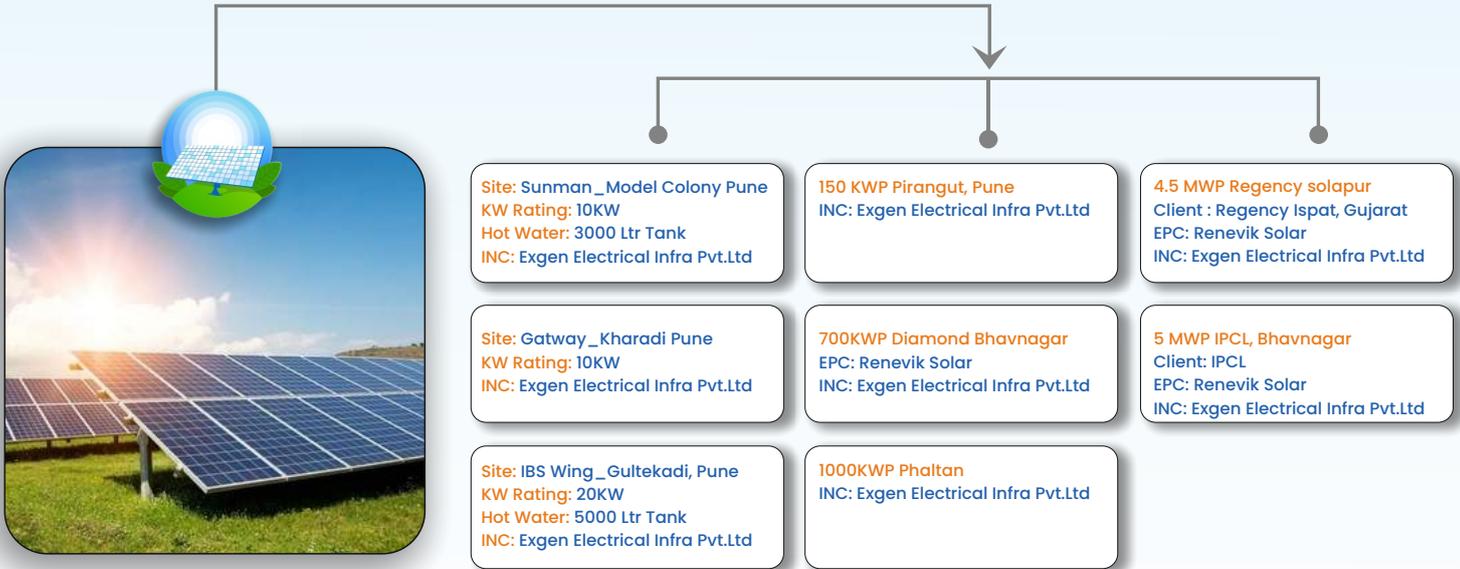

### ◆ Electrical Inspector (PWD)

We provide professional liaisoning and approval services with the Electrical Inspector (PWD) for government, semi-government, and public infrastructure projects. Our services ensure statutory compliance and smooth approvals for electrical installations.

With in-depth knowledge of PWD procedures and electrical safety regulations, we assist clients in completing inspections, documentation, and approvals efficiently, reducing delays and ensuring full regulatory compliance.

# SOLAR

# EV INFRA

## COMMERCIAL (Malls, Offices, Hotels, IT Parks)

- Site load assessment, power planning & utility coordination.
- LT/HT electrical infrastructure, transformers & EV panels.
- AC & DC EV charger installation with earthing and protection.

## RESIDENTIAL (Apartments, Villas, Gated Communities)

- EV load study, sanctioned load enhancement & approvals.
- LT cabling, EV distribution boards & smart metering.
- AC home charger installation with safety protection.

## PARKING FACILITIES (Public & Multi-Level Parking)

- Centralized EV power infrastructure & feeder panels.
- Multiple AC/DC charger installation with load management.
- Structured cabling, trenching & electrical safety systems.

## HIGHWAYS & FUEL STATIONS

- HT/LT power connection with fast charging infrastructure.
- High-power DC chargers with backup power integration.
- Earthing, surge protection & outdoor-rated installations.

## INDUSTRIAL (Factories, Warehouses, Manufacturing Units)

- HT power planning, substation & transformer augmentation.
- High-capacity DC fast charger installation.
- Earthing, lightning protection & safety systems.

## FLEET DEPCTS & BUS TERMINALS

- Fleet energy assessment & charging strategy planning.
- HT substations, transformers & high-capacity DC chargers.
- Solar, DG & battery system integration.

## • WHY CHOOSE US •

QUALITY ASSURANCE

WIDE RANGE OF PRODUCTS

EXPERIENCED TEAM

CUSTOMER-CENTRIC APPROACH

TIMELY DELIVERY

COMPETITIVE PRICING

## OUR PROJECTS

### COMMERCIAL PROJECTS

- ✓ Baner 45 - Pune
- ✓ Galaxy - Baner, pune
- ✓ Alpha C - Baner, Pune
- ✓ Antaya - Baner, Pune
- ✓ Nancy Hill View - Sus, Pune
- ✓ MDI Network - Vimannagar It Park, Pune
- ✓ City Hub - Bhavanipeth, Pune

### INDUSTRIAL PROJECTS

- ✓ Emotorad - Jambe, Pune
- ✓ Wipro Pari - Nasrapur
- ✓ Vansundhara Goldfarm - Satara
- ✓ SIAC SKH India Cabs - Chakan, Pune
- ✓ Flash Electronics - Chakan Midc
- ✓ Seamless Automation Pvt. Ltd. - Chakan
- ✓ Lear Corporation - Chakan, Pune

### RESIDENTIAL PROJECTS

- ✓ Pentagoan Tower - Karvenagar, Pune
- ✓ Sunbeam Apartment - Morden Colony, Pune
- ✓ Vivantel Malpani - Baner, Pune
- ✓ Godrej River - Mahalunge, Pune
- ✓ Geera's Island CF Joy - kharadi, Pune
- ✓ Kshitij Appartments - Bibwewadi, Pune
- ✓ Arohi Co-operative Housing Society - Sus, Pune
