

An ISO 9001 : 2015 Company

EXGEN GROUP

INNOVATING POWER | EMPOWERING PROGRESS

SUPPLY | SERVICES | SOLUTIONS

ABOUT US

Exgen Group is a dynamic and growth-oriented business conglomerate established through the strategic collaboration of three synergistic companies, each contributing its expertise to the collective mission:

Since our inception in 2020, Exgen Group has been committed to bridging the gap between innovative technology and practical implementation in the fields of electrical engineering and power systems. We take pride in our customer-centric ethos, ensuring that each project is executed with meticulous attention to detail and a dedication to exceeding client expectations. Through our rigorous project delivery systems and unwavering commitment to excellence, Exgen Group aspires to establish new industry standards and benchmarks for quality, reliability, and sustainability.

EXGEN ELECTRICAL INFRA PVT. LTD.

Exgen Electrical Infra Pvt. Ltd. on the development and supply of advanced power products and renewable energy solutions With Specialization in Electrical Contracting Our Engineering, Procurement, and Construction (EPC) services leverage the latest technological advancements to support sustainable energy initiatives, facilitating the transition to green energy alternatives while enhancing overall energy efficiency.

INGINEOUS POWERTECH

This division specializes in electrical contracting, project execution, and comprehensive power infrastructure services. We are committed to delivering innovative solutions that ensure efficient and reliable energy distribution, tailored to the specific requirements of clients across various sectors, including commercial and industrial domains.

EXPERT ELECTRICAL AND ENGINEERS

Expert Electrical and Engineers is a distinguished organization specializing in the manufacture and supply of various electrical panels, including Control Panels, Distribution Panels, and Automatic Power Factor Correction (APFC) Panels. With a steadfast commitment to quality and innovation, we have established ourselves as a reliable partner for industries seeking efficient electrical solutions. We take pride in being a leading manufacturer and supplier of these essential components.

VISION, MISSION & CORE VALUES

VISION

Our aim is to be recognized as a trusted and innovative leader in the field of electrical and power solutions, dedicated to serving various industries with integrity, reliability, and excellence.

MISSION

- To provide the highest standards of electrical and power services across diverse sectors.
- To empower clients by offering efficient, sustainable, and cost-effective solutions.
- To cultivate a culture that prioritizes innovation, safety, and environmental stewardship.
- To establish enduring partnerships with clients, suppliers, and communities.

CORE VALUES

Integrity: We conduct our operations with transparency and ethical principles.

Safety: The safety of individuals and projects remains our unwavering priority.

Quality: We deliver premium services and solutions that adhere to the highest standards.

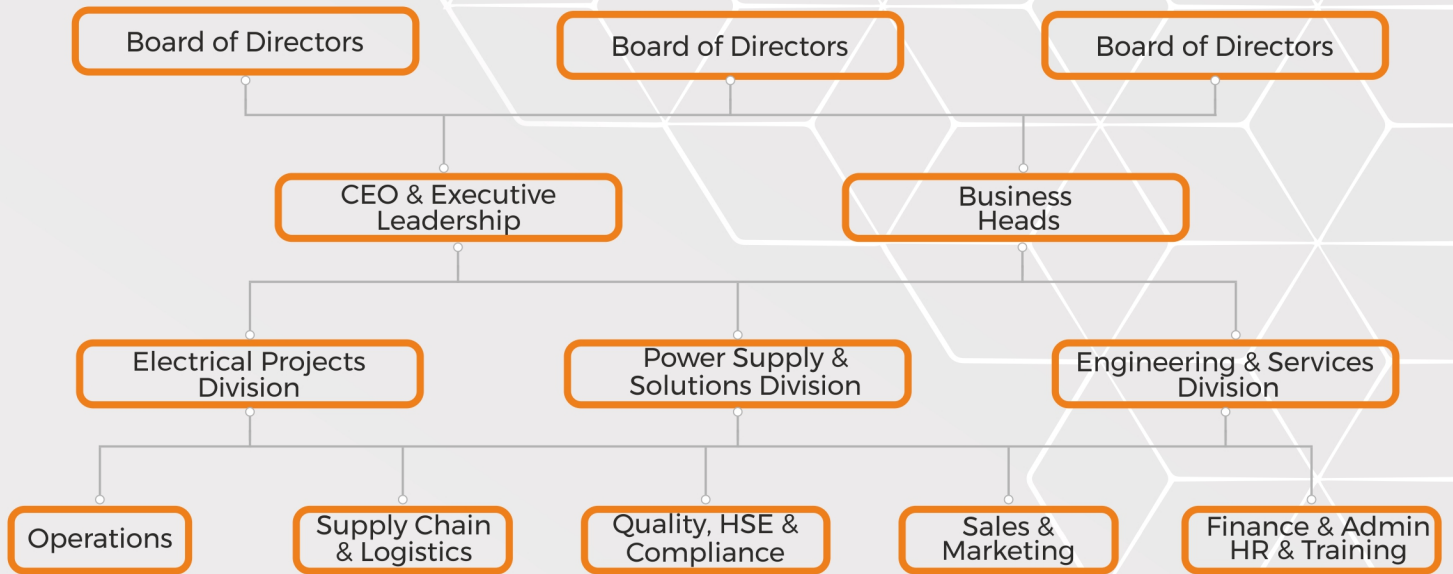

Innovation: We are committed to continuous improvement and the integration of advanced technologies.

Customer Focus: We endeavor to comprehend and surpass client expectations..

CORPORATE STRUCTURE

EXGEN GROUP HIERARCHY

All companies operate under unified strategy, shared systems, and centralized quality and compliance standards.

Mr. Kiran Bhondve

BE(Electrical)/LLB

(Director)

Mr. Kiran Bhondve, a Bachelor of Engineering in Electrical (BE) and a Bachelor of Laws (LLB), boasts over 8 years of diverse experience in the electrical infrastructure sector, encompassing both government and private projects. His extensive expertise spans across Extra High Voltage (EHV), high voltage, and low voltage systems, as well as the design and management of substations.

Kiran has successfully obtained approvals from government authorities, demonstrating his commitment to adhering to regulatory standards. He has contributed to a wide range of projects in industrial, commercial, and residential sectors, ensuring that each installation meets the highest standards of safety and efficiency.

Mr. Mayur Bhoskar

BE(Electrical)/MBA

(Director)

With over 8 years of extensive experience in the manufacturing industry, Mr. Mayur Bhoskar specializes in the development and production of control panels, solar energy systems, and electric vehicle infrastructure. His expertise spans across various sectors, including industrial, commercial, and residential markets. Mr. Bhoskar is dedicated to delivering innovative solutions that enhance energy efficiency and promote sustainability, making a significant impact in the growing fields of renewable energy and infrastructure development.

Mr. Goraksh Jadhav

BE(Electrical)/ME

(Director)

Mr. Goraksh Jadhav possesses over ten years of experience in electrical infrastructure and turnkey project management, with a specialized focus on the execution of high-tension (HT) and low-tension (LT) projects. His expertise encompasses project planning, design, and implementation, ensuring timely delivery while complying with industry standards and safety regulations. Mr. Jadhav demonstrates proficiency in leading cross-functional teams and communicating effectively with stakeholders to achieve favorable project outcomes.

EXGEN ELECTRICAL INFRA PVT. LTD.

Exgen Electrical Infra Pvt. Ltd. was established with the mission of providing comprehensive and innovative electrical infrastructure solutions. Our expertise encompasses a wide range of services, including:

- Government Authorised Electrical Contractor
- HT & LT Electrical Project Work
- Industrial, Commercial & Residential Electrification Projects
- Turnkey Electrical Projects
- Electrical Project Management
- MSEDCL Electrical Liaisoning Work
- Solar Power Plant
- Plant Shifting, Installation & Project Activities
- CCTV & Security Systems
- EV Charger Infrastructure
- Suppliers of All Types of Control Panels
- Chief Electrical Inspector to Government Liaisoning
- Electrical Inspector (PWD)

INGENIOUS POWERTECH

Ingenious Powertech is a distinguished solutions provider that specializes in power generation and distribution. Our expertise encompasses renewable energy systems, including:

- Liaisoning with Government Departments.
- Electrical Inspector Approval Liaisoning with MSEDCL/MSETCL/Electricity Board Authorities
- Chief Electrical Inspector to Government (CEIG) Liaisoning
- Preparation & Submission of Load Sheet Documents Regular Follow-ups Till Final Approval & Sanction.
- HT/EHV Substations (11 kV / 22 kV / 33 kV / 66 kV / 132 kV)
- SITC Transformer and HT Panels.
- Supply and Laying Off Overhead and under ground HT& LT Cables.
- Earthing and lightning Protection for HT & LT Systems.
- Electrical Inspector Approval And Testing

EXPERT ELECTRICAL AND ENGINEERS

Expert Electrical and Engineers is a reputable organization specializing in the manufacture and supply of a range of electrical panels to meet diverse industrial needs. Our offerings include control panels, distribution panels, and automatic power factor correction (APFC) panels. With a commitment to excellence and innovation, we have earned a reputation as a trusted partner for industries seeking efficient electrical solutions.

- Control Panel Manufacturing
- Power Control Panel (PCC)
- Motor Control Panel (MCC)
- PLC Control Panel
- VFD / Drive Control Panel
- Automation Control Panel
- HT & LT Panels
- AMF Panel
- APFC Panel
- Synchronizing Panel
- Lighting Control Panel
- Instrument Control Panel
- ACDB & DCDB Panels
